CAPE GIRARDEAU, MO (KFVS) - Congresswoman Jo Ann Emerson attended a special conference where students from local schools learned about Missouri's free file alliance for taxes on Monday.

Emerson helped students learn more about these free file programs.

"This is going to be for free," Emerson said. "For anybody who makes more or less under \$57,000 a year. So, I encourage everybody, hopefully you don't have to take out a refund anticipation loan because you're paying really high interest rates and if you e-file then you get your money in a matter of days."

The conference was held at the Cape Girardeau Career and Tech Center in Cape.

It also broadcast the information to students at the Delta Center, Portageville, Three Rivers Community College, Mineral Area College, and Farmington Outreach Center.
