

Exhibit Opportunity

Sixteenth Annual Technology Conference

Federation of Tax Administrators

August 13-16, 2000

HIGH VISIBILITY

The FTA Technology Conference gives you the best opportunity to meet top people in the state revenue agencies—technology directors and managers as well as other senior personnel. Your products and services will have concentrated, maximum exposure to over 400 representatives of 40+ state tax agencies, as well as local authorities, IRS, Canadian, and other international agencies.

TECHNOLOGY FRONTIERS

The FTA Technology Conference has been marked by highly productive exchanges of information on technology trends among government agencies and the private sector. This year's conference will continue that tradition, with significant keynotes and sessions planned on web-based electronic filing, the role of partnerships, links, and referral programs, 2-D bar coding and other automated data capture technologies, e-commerce marketing, web portals, customer e-service initiatives, integrated tax administration systems, IRS initiatives, XML developments, web page design, electronic signatures, and a variety of other tax administration technologies. The Exhibit Hall is a great opportunity to offer solutions during the 2000 FTA Technology Conference!

Plus: when you exhibit, two people per booth get complimentary registrations for the conference!
